

HELPING US TO PROVIDE HOPE FOR CHILDREN

STOCK DONATIONS

Your stock donation can benefit you.

Support of us through stock donations can help you to save on capital gains taxes.

The gift of an asset, often common stock or mutual fund shares, is a valuable way to make a contribution and receive tax benefits based on the value of the assets.

For example, if you had 200 shares of XYZ Corp that you had purchased at \$15 a share years ago, and the current value in today's market is \$36 a share, and you decided to sell your stock, you would have a taxable long-term capital gains of \$4,200, which is the difference between your original cost and what you would receive from the sale. ($\$36 - \$15 = \$21$ capital gains per share)

If instead of selling the stock, you donate your 200 shares to the Joe Torre Safe At Home Foundation, you would not incur any capital gains **and** would be able to deduct the current value of \$7,200 (200 shares x \$36 = \$7,200) as a charitable gift.

By donating the stock, we would receive more than if you had sold the stock and then donated the proceeds after deducting the capital gains taxes, and you receive a greater tax deduction by giving the stock directly to us and avoiding any capital gains tax.

You will find our stock donation account information within the attached Sample Letter that you can send to your stock broker. If you'd like more information, please reach out to Vice President of Development, Alan Kornblum at 212-880-7360, or Alan@joetorre.org.

Sample Letter to Broker
